

# Human DJ

*An interactive musical synthesizer  
powered by human touch!*

Special thanks to Prithvi  
for being our DJ :)

**To try it out:**

1. **Wear the bracelet** and make sure the metal contact is touching your wrist properly
2. **You're now part of the instrument**—the DJ can tap/high-five you and play some music!! :)

**Built by Eva, Ishika, Komron and Rohit**
